

Maine Business School Five Year MBA Program
DECLARATION OF INTEREST

Students who are interested in pursuing the MBA program as a fifth year of their academic program must first fill out this “declaration of interest” form.

By filling out this form, it does not obligate the student to ultimately apply to the MBA program, and it does not imply any offer of admission into the MBA program. The purpose of the form is to simply have documentation about who might be applying for the MBA program, and at what time, to help in planning.

The Maine Business School agrees to provide each interested student with updates if there are changes to the MBA curriculum.

Each student who registers his or her interest in the five-year MBA program agrees to read the program information for the five-year MBA. Students are welcome to set up an appointment with the business school graduate director for additional information.
